

# RICK HUFFMAN

Graphic Designer | 3D Modeling & Media Arts

## ABOUT ME

I'm a graphic designer with a Bachelor of Arts in Graphic Design & Media Arts, where I focused on both digital design and 3D modeling. I work mainly with Photoshop, Illustrator, and InDesign, and I also build 3D props and architectural models in Maya and Substance Painter. I like creating work that is clean, practical, and visually strong across print, digital, and 3D projects. More examples of my work are available in my online portfolio.
